

ALL - Discussion on new module, workload, and various tasks

All – Brief discussion on what we may need to do for summative assessment tasks

Michael – Experience of feature creep in various industries

Taylor – Not directly applicable to railway industry

Andrey – Discussion on project management triangle

Michael – Not seen it in practise

Shan – Only seen in recently in context of work

All – Discussion project management

Michael – Cost constraints

Andrey – Effect of scrum and agile

Taylor – Requirements of toy

Grace – where are they

Andrey functional non functional

Grace – do we only use the ones on the list

Shan – Some requirements are unclear

Taylor – could be physical or nonphysical toy

Andrey – breakdown of task

Grace – Useful unit 11 task is pre-recorded

Andrey – Does everyone need to present

Grace – Large groups in previous unit

Andrey – Questions to ask tutors

Michael – Are we customers or developers – both

Taylor – Physical or digital toy to choose requirements for

- Physical toy may be better as it gives the other team more to work with

Andrey – Agrees

All – Further discussion on requirements and what sort of customer we want to be

Shan – Treat this like a real thing, as its more value to be like a real life scenario

Requirements – 2,5, 10, 11, 12, 13,14,15,17,18,21,22,24,28,31,35

Grace – Discuss further requirements after seminar
