

Action Plan Template

Achievements Plan targeted for the end of Network Information Security Management.

What do I want/need to learn? Provide a specific description of the desired changes (e.g. skills to gain, knowledge to acquire, topics/themes/content to cover)	What do I have to do to achieve this? Some examples, a new/ongoing course, conference, self-development (like wider research or reading), coaching/mentoring, job shadowing	What resources or support will I need? Some examples, teaching staff support, library support, student advisor support, line manager, etc.	How will I measure success? Some examples, appraisals, course assessments, team feedback, tutor feedback	Target dates for review and completion Note that these need to be realistic/achievable
Add to current understanding of data security.	Engage in the discussion forums; read the reference materials; consider data security in terms of work experience		Make valuable contributions to the team and student collaboration. Provide insights into medical data used by employer.	20 Feb. 2022 (Unit 12)
Gain a deeper understanding of data standards.	Read the reference materials provided. Research relevant data standards and reflect on them.		I will be able to provide informed points for discussion about standards such as GDPR and ISO 27001.	20 Feb. 2022 (Unit 12)
Understand different network architectures.	Read the reference material provided		Ability to successfully debate for or against a given network architecture, such as Content-centric networks.	20 Feb. 2022 (Unit 12)
